

# Oxygen Solutions Inc.

## VACUUM SWING ADSORPTION OXYGEN GENERATORS

### BENEFITS

Lowest power consumption possible for a vacuum swing adsorption system

Compact and can be moved and installed with minimal handling

Totally self contained and can be on line in minimum time

Very low maintenance

Remote diagnostics and communications

Automatic turn-down to suit the demand and save energy

### FEATURES

Available in 1/4 TPD (120 lpm), 1/2 TPD (240 lpm), 1 TPD ( 480 lpm), 3TPD (1500 lpm) and 5 TPD (2500 lpm)

Available in various voltages, 460, 380, 415 and 575 volts, 3 phase

Requires only the power connection and one hose connection

Will self adjust to the demand load

Self contained booster compressor up to 90 psig
